OF THE

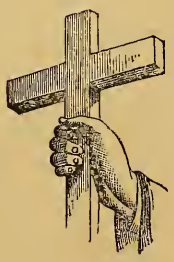
OFFICERS AND STUDENTS

OF

BOSTON COLLEGE

FOR THE

ACADEMIC YEAR 1876-77.



BOSTON:
ALFRED MUDGE & SON, PRINTERS, 34 SCHOOL STREET.
1877.

A. M. D. G.

BOSTON COLLEGE,

NO. 761 HARRISON AVENUE,

BOSTON, MASS.

This Institution was incorporated May 25, 1863, by the State of Massachusetts, with power "to confer such degrees as are usually conferred by colleges in this Commonwealth, except medical degrees."

Schools were opened September 5, 1864.

The terms are thirty dollars per session, payable in advance. Provision is made for the instruction of indigent but meritorious candidates, who should present their claims for admission before the commencement of the session.

Day-scholars only are received.

Other conditions of admission are a good moral character, and a knowledge of the fundamental principles of Arithmetic and Grammar.

The academic year is divided into two sessions, the first beginning on the first Monday of September, the second on the first Monday of February; but students are not precluded from entering at any time during the year.

The following are the ordinary holidays: —

The days remaining from the close of an examination to the end of the session.

All the holy-days of obligation.

From the twenty-third of December to the second of the following January.

From Wednesday in Holy Week to Wednesday in Easter Week.

The feasts of St. Patrick and St. Aloysius.

Fast Day, Thanksgiving Day, the day of the Artillery Election.

Extraordinary holidays are conceded, but rarely, at the judgment of the President.

The hours of attendance are from 8½ A. M. to 2½ P. M., with recesses at convenient intervals. On Saturdays, and on eves of festivals of obligation, schools close at 12 M.

The first half hour of each day is occupied in attendance at Mass. One hour a day is spent in the class of Arithmetic, or Mathematics; two hours a week, in the study of Modern Languages; the rest of the time is alloted to the principal class, that of English, Latin, and Greek.

The Fathers of the Society of Jesus, by whom the College is conducted, have for object to impart a religious, classical, and scientific education.

The Act of Incorporation provides that "no student in said College shall be refused admission to, or denied any of the privileges, honors, or degrees of said College on account of the religious opinions he may entertain." Students who are not Catholics will not be required to participate in any exercises distinctively Catholic, nor will any undue influence be used to induce a change of religious belief.

Catholic students will be required to be present at Mass every day, unless distance of residence should furnish reason for exemption; to recite the daily catechetical lesson; to attend the weekly lecture on the doctrines of the Church, and the annual retreat; to present themselves to their confessor every month; and if they have never received the sacraments of Penance, Confirmation, or Holy Eucharist, to prepare for their reception.

On admission, the pupil is examined, to determine what classes he should enter. Subsequent progress in the course will depend altogether upon his progress in learning. From the inequality of preparation found in students entering, detention for more than a year in the lowest classes is of frequent occurrence. And from inequality of proficiency in the several branches, it often happens

that all the classes a scholar attends do not belong to the same year; for example, that his class of Mathematics may be of the fourth year, whilst in his principal class (by which his position in the course is determined) he is rated as of the fifth.

The subjoined schedule of books and studies will show that though no provision has yet been made for an exclusively English course, the study of English, so far from being neglected, is greatly advanced by being pursued conjointly with that of the ancient languages.

When to the successful student is awarded the degree of Bachelor of Arts, other degrees may be obtained on the usual conditions.

The students are expected to prepare their lessons at their homes. For this preparation, two hours of study a day will ordinarily suffice.

Should parents fail to receive the monthly report of proficiency, and should there be no evidently satisfactory reason to account for the failure, they are earnestly requested to notify the teacher.

In addition to the customary rewards, annual prizes have been instituted with the following conditions: —

Fifty dollars in gold will be divided equally among such as pass perfect examinations in the whole of the arithmetic; those being excluded from the competition who belong to the Mathematical Department, and those who have spent more than one year in the first class of Arithmetic.

Two purses of twenty-five dollars in gold, each, will be awarded for perfect examinations in the second and third classes of Arithmetic.

Fifty dollars in gold will be awarded for the best English prose composition.

Twenty-five dollars in gold will be awarded for the best thesis on some point of Christian doctrine.

Twenty-five dollars in gold for excellence in Reading, and the same amount for excellence in Declamation. For the last five prizes all are allowed to compete, except scholars of the first year, and those on whom the same award may have been previously conferred.

When religious motives are continually appealed to, less need is experienced of frequent or severe punishment.

Flagrant offences, such as are detrimental to the reputation of the College, or are obstructive of the good of the pupils, are grounds for expulsion.

For faults of ordinary occurrence, — such as tardy arrival, failure in recitations, or minor instances of misconduct, — a task, consisting of lines from some classical author, is committed to memory after the close of the school.

The College Library numbers twelve thousand volumes. At a

trifling expense, and with the advantage of their teacher's direction, the students may supply themselves with those books, the perusal of which, is judged necessary for the completeness of their education. The benefactors during the past year have been Hugh Cary, Esq., R. H. Dana, Sr., Esq., Mrs. P. R. Guiney, Alderman O'Brien, Jno. O'Kane, Esq., Dr. R. Salter, and "A Friend of Boston College."

The Philosophical Apparatus, already large enough for the necessities of the course, will be increased as circumstances permit.

The Faculty acknowledge their indebtedness to Jas. Coffees, Esq., and to Mrs. Geo. W. Lloyd, for contributions to the Museum of Natural History.
